

Jabra PRO 9470

STAY IN TOUCH AROUND THE OFFICE

ONE HEADSET FOR ALL YOUR PHONES

Today's business cards often feature different numbers for desk, mobile and softphone. The result? You find yourself grabbing your mobile just as the caller gives up and tries the desk phone instead! Designed with busy managers and specialists in mind, Jabra PRO™ 9470 can save you a lot of hassle. With the award winning headset, all your phone calls come to the same headset. You can tap and talk, hold calls or merge them into a conference call, from all your phones.

USER-FRIENDLY TOUCH SCREEN BASE

Your desk, mobile and softphone are united by an intuitive, stylish touch screen base that offers a wireless range of up to 150m. Equipped with a simple SmartSetup wizard, the touch screen helps you connect phones and choose preferences to get started in just a few minutes. Once you're up and running, its colorful icons and intuitive menu system make call-handling a breeze.

UNBEATABLE SOUND

Several state-of-the-art sound technologies enable the Jabra PRO™ 9470 to deliver unrivalled call clarity and safety. A dual microphone Noise Blackout™ system with advanced Digital Signal Processing practically eliminates all background noise, so your voice can always be heard clearly. Wideband quality ensures that the sound you hear is crystal clear, while SafeTone technology protects your hearing.

- Multiuse connectivity: desk, soft and mobile phones
- Touch screen base with SmartSetup wizard
- Dual microphone Noise Blackout™ system
- Wideband sound (150 Hz - 6,800 Hz)
- Full hearing protection with Jabra SafeTone
- Up to 150m wireless range
- Minimal energy-consumption with Jabra IntelliPower
- Superior comfort with 3 wearing styles
- Up to 9 hours talk time
- Future-proof investment with free software upgrades via Jabra PC Suite

All current USB peripherals that are optimized for Microsoft® Office Communicator (PC version), such as headsets, will be compatible with Microsoft® Lync™.

FEATURES & BENEFITS

FEATURE	BENEFIT
Up to 150m* wireless hands-free telephony with DECT and DECT 6.0 with CAT-iq technology	Long range and reliable connectivity gives users the freedom to multi-task with maximum efficiency and answer phone calls from any location in the office.
Multiuse connectivity – desk, soft and mobile phone (mobile phone connects to headset base via Bluetooth®)	Allows users to switch seamlessly between calls on desk phones, softphones and mobile phones.
Talk time up to 6h in wideband sound mode and up to 9h in narrowband sound mode	No need to charge headset for a full working day.
Headset controls: – Multifunction button – Headset touch panel	Includes remote answering/ending of calls, call rejection, redial function, swapping between held calls, volume controls and microphone mute from both desk, soft and mobile phone.
2.4" Touch-sensitive screen in Q-VGA resolution for call handling, system configuration and setup wizard	Intuitive touch screen call management. Shows active phone device and allows the user to merge calls. Easy system configuration with SmartSetup wizard.
Standby time 46h	Less need to charge headset.
Voice recording from desk and mobile phone	Save conversations on a PC (PC recording application required).
3 wearing styles: – Headband – Neckband – Earhook	Swap easily between different wearing styles and attach the headset to whichever ear the user prefers.
Headset weight 28g.	Lightweight office headset.
Wideband sound and Duo Core DSP (Digital Signal Processing)	Hear and be heard with digitally enhanced speech and sound in wideband quality. Helping users hear what customers are saying, this feature enhances understanding and call efficiency.
Supports both wideband (150-6,800 Hz) and narrowband (300-3,400 Hz) to match phone system	Close integration with the specific type of phone system means better call clarity for both parties. Bandwidth can be selected per phone.
2-microphone Noise Blackout™ technology	State-of-the-art noise-canceling reduces distractions by almost eliminating background noise, so only the user's voice is transmitted.
Jabra SafeTone technologies	Protects users' hearing by cutting off sound spikes and sudden loud noises (PeakStop™ protection). Secures safe average sound levels throughout the day (IntelliTone™). Fully compliant with noise-at-work legislation.
E-hooks and free drivers available on www.jabra.com/pcsuite	Users can answer/end calls up to 150m away from their soft and deskphone.
Minimal energy consumption with Jabra IntelliPower system	Headset and base go into sleep-mode when not active. Screen display is automatically dimmed and a switch mode power supply ensures reduced power consumption. This saves energy and reduces CO ₂ emissions.
Security: encryption between headset and connected device	Secure conversation. No one can listen in on your conversations.
Security: Kensington Lock	Theft protection of the base.
North America: One-year limited warranty	With GN Netcom's no fine print 1-year warranty, you'll enjoy worry-free ownership.
Europe/APAC: Two-year limited warranty	With GN Netcom's no fine print 2-year warranty, you'll enjoy worry-free ownership.

* Range varies according to the environment in which the headset is used

SAFETY

The Jabra PRO™ 9470 meets the requirements of the international standard IEC 60950-1. It also meets EN 60950, AS/NZS 60950 and UL 60950 IT equipment safety standards.
